MERCURY INFLATABLE BOATS. WHEN QUALITY COUNTS.

For over 75 years Mercury has been dedicated to manufacturing the finest marine products in the world.

Born out of the renowned Quicksilver Inflatable Boats heritage, our line of Mercury Inflatable Boats are no exception. Mercury Inflatable Boats utilise the most current and highest-quality processes in the industry.

Mercury's ISO 9001:2000 certified factories assure a level of excellence in all aspects of production, making our boat packages the best – from bow to stern.

THE MERCURY ADVANTAGE

They're easy to store, easy to inflate, easy to transport, easy to launch, and very easy on the pocket. As a ship-to shore craft, or as a go-anywhere boat in its own right, Mercury Inflatable Boats make a whole lot of sense.

Included with Boat

- > Double action air pump
- > Repair patches
- > Pump Gauge
- > Carrying bag for your boat (selected soft bottom boats only)

Bow Handles
Extra handles inside the tube provide a more secure grip as well as additional holding points.

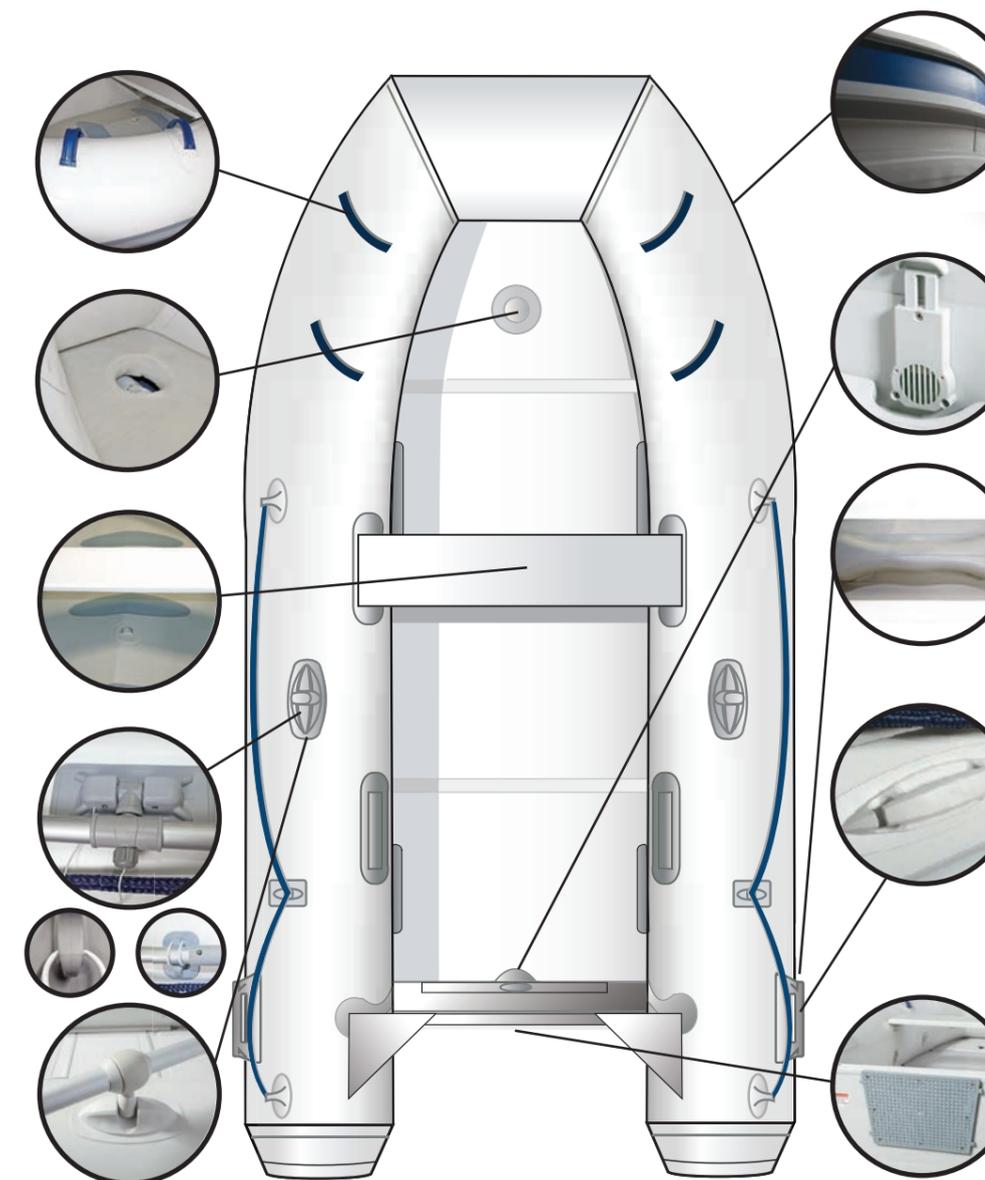

Inflatable Keel
All models are equipped with an inflatable keel under the floor for better performance (excluding rigid hull boats).

Fibre-Reinforced Polymer (FRP) Seat
Mercury Inflatable Boats feature a durable FRP seat to eliminate cracking, decay and slivers.

Achilles® HP Models

Oarlock System
Attach oars quickly and securely to fittings designed for strength, convenience and ease of use.

Mehler Haku® PVC Models

Double tear-drop rub strake
The double tear-drop rub strake helps to reduce splashing and provide your boat with better shock resistance.

Drain Plug
The inside drain valve provides you the convenience of draining from the inside, quickly and easily.

Achilles® HP Models

Lifting Handles
The boats are equipped with contemporary lifting handles for easier handling and transportation.

Mehler Haku® PVC Models

Fabric Laminated Transom
The Fabric Laminated coating protects against cracking and decay, which ensures greater durability compared to traditional plywood transoms.

CHOOSE FROM TWO SUPER-TOUGH MATERIALS

1. DURABLE MEHLER HAKU® PVC FABRIC

Mercury Inflatables are produced with Mehler Haku®, a heavy-duty, long-life fabric, which offers excellent resistance against UV, cuts, abrasions and normal wear and tear. This fabric also offers maximum resistance against high temperature, moisture and dirt.

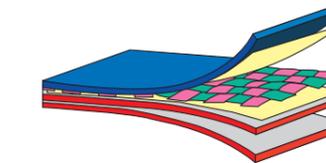

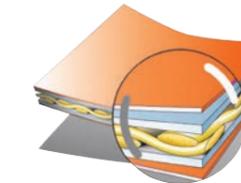

Mercury Inflatables offer one of the best guarantees in the market including 3 years warranty on the Mehler Haku® fabric and air holding thermowelded seams giving you assurance of our commitment to quality (excluding Dinghy Series).

Mercury applies the exclusive technique of THERMOWELDING when assembling the Mehler Haku® PVC fabric of its tubes. This process combines fusion welding with high pressure bonding of double internal/external tapes, and is used to assemble the different parts of the tubes with welds stronger than the material itself.

2. SUPER-TOUGH ACHILLES® HP FABRIC

Our Achilles® HP range features a premium quality, extra heavy-duty fabric, which offers superior performance in most extreme conditions... including resistance to abrasions, hydrocarbons, fire, ultra-violet light, and fading.

- > Achilles® HP is a super-tough synthetic rubber fabric with an inner layer of Neoprene. Extensive testing has shown that Achilles® HP out-performs other materials, such as PVC in abrasion, oil, petrol, chemical, and weather resistance.
- > Its extreme resilience... plus its lightness, toughness and buoyancy, makes it an ideal material for inflatable boats.
- > Achilles® HP is a fabric that sets the standard for inflatables around the world!

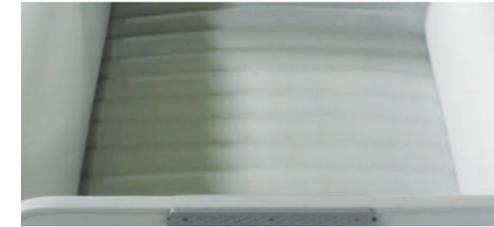

*3 year warranty on Mehler Haku® PVC except for Dinghy models which have a 1 year fabric warranty.

Different Warranty Terms may apply for countries outside Australia and New Zealand.

Please see <https://www.mercurymarine.com/en-gb/au/service-and-support/warranty> for the latest warranty information.

FLOORS TO SUIT **ALL MODELS**

AIR FLOOR

The Dinghy series features a traditional air mattress flooring which is comfortable, easy to inflate and convenient.

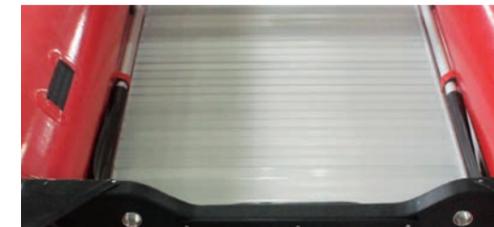

AIR DECK FLOOR (X-STITCHED)

All Air Deck models feature a X-stitched inflated floor that provides 50% more floor rigidity when compared to the traditional drop stitched air floor systems. Our Air deck floors also feature anti-slip patches.

SPORT FLOOR - FIBRE REINFORCED POLYMER

Sport models are equipped with a removable fibreglass sectional floor that offers durability, additional buoyancy and a lower cost compared to aluminium floorboards. Fibre reinforced polymer flooring is also waterproof and won't degrade.

ALUMINIUM FLOORBOARD

Mercury's Heavy Duty inflatable models are built for their strength and durability. Equipped with reinforced aluminium floorboards, they are incredibly resistant and suited to demanding applications or extensive use. Aluminium floorboards are easily installed and provide a non-slip surface to enhance traction in wet conditions.

RIGID HULL FLOOR - FIBREGLASS

The Ocean runner and Dynamic models feature rigid fibreglass hulls which incorporate a stable and firm deck.

The Ocean Runner has a sandwich-laminated fibreglass v-hull for incredible performance and a flat floor.

The Dynamic RIB series features a laminated fibreglass hull with VITECH® (Vacuum Injection Technology) process, moulding the hull and transom as one piece for incredible strength-to-weight ratio.

RIGID HULL FLOOR - ALUMINIUM

New to the Mercury Inflatable range are the Aluminium RIBs with their flat painted Aluminium checker-plate flooring designed for strength, durability and slip resistance even when wet.

DINGHY

PERFECT ON (OR OFF) THE ROAD

Ideal for 4x4 and caravan enthusiasts, these dinghies are smaller, lighter and easier to prep-and-store than ever before – yet still safe, stable and heaps of fun.

The 200, 240 and 270 Dinghies weigh a paltry 19, 22 and 26 kilograms respectively and roll up into a bag only 1 metre long!

DINGHY	200	240	270
Fabric – Mehler Haku® PVC 1 year warranty	✓	✓	✓
Max Persons	2	3	3
Length	200cm	240cm	270cm
Max HP	3.3	3.5	5
Max Engine Weight	20kg	20kg	30kg
Weight (Excludes weight of oars, repair kit, double action pump, seat & bag supplied with all boats)	19kg	22kg	26kg

If you want to go fishing, cross a river, or see the sights from the water, these Dinghies are simply ideal to keep in the back of a 4x4 or tucked away in a caravan.

The Dinghies are constructed with four air chambers – two on the sides, one for the keel and another for the floor for peace of mind.

These come with a range of unique features –

- > Two separate internal air chambers for safety, plus floor and keel
- > Excellent quality fold down rowlocks for easy storage of oars
- > Durable grab rope
- > Bench seat
- > Compact size
- > Storage bag
- > Dual-actioned hand pump for quicker inflation and assembly
- > Covered by an extensive 1 year warranty.

Air Floor

AIR DECK WITH INFLATABLE FLOOR & KEEL

Take the fun of boating with you wherever you go. It may be a favourite campsite, or a fishing spot... whatever you have in mind a Mercury Air Deck boat makes the ideal companion.

AIR DECK	220	250	290	320
Fabric				
- Mehler Haku® PVC 3 year warranty	✓	✓	✓	✓
- Achilles® HP 5 year warranty	✓	✓		
Max Persons	3	3+1 child	4	5
Length	220cm	250cm	290cm	320cm
Max HP	5	8	15	20
Max Engine Weight	30kg	40kg	60kg	60kg
Weight (Excludes weight of oars, repair kit, double action pump, seat & bag supplied with all boats)				
- Mehler Haku® PVC	37kg	39kg	43kg	46kg
- Achilles® HP	38kg	44kg		

Easy to stow in a car boot, caravan or boat locker, they weigh in at around 25% less than a comparable inflatable with wooden or fibreglass removable floor.

The high-pressure inflatable floor gives a rigid and stable floor area strong enough to accommodate up to 5 adults in the largest model. As a tender, or a general purpose boat, the Air Deck Series is a winner!

Light in weight, but not in features -

- > Rubbing strake around the tube
- > Safety handles for secure grip
- > X-stitch air floor. Thousands of x-stitched fibres give much more rigidity than traditional dropstitched air floor. Features non-slip patches for safety.
- > Inflatable keel for genuine performance
- > No loose parts to assemble and an absolute breeze to carry
- > Easier to store, as every part of the boat is inflatable
- > Inflatable keel & rounded end-cones maximise performance
- > Added convenience of a one-way drain valve with plug
- > Sleek European styling and extra interior room
- > High-quality Mercury valves
- > A comfortable rowing position
- > Dual-action hand pump with pressure gauge for quick inflation

SPORT

HIGH PERFORMANCE FUN

These are tough, versatile boats in their own right, and they make an ideal alternative to traditional small boats.

SPORT	220	250	290	320
Fabric - Mehler Haku® PVC 3 year warranty	✓	✓	✓	✓
Max Persons	3	3+1 child	4	5
Length	220cm	250cm	290cm	320cm
Max HP	5	8	15	20
Max Engine Weight	30kg	40kg	60kg	60kg
Weight (Excludes weight of oars, repair kit, double action pump, seat & bag supplied with all boats) - Mehler Haku® PVC	43kg	51kg	56kg	62kg

Look beyond the obvious portability and economy, and you'll see boats that offer some serious strength, manoeuvrability and performance attributes. With their low centre-of-gravity and FRP floorboards, these are boats built to go the distance. They're also big enough to haul plenty of people and gear... up to 5 adults in the largest model... yet light and compact enough to carry and store easily.

These come with a range of unique features -

- > Inflatable keel and rounded end-cones for enhanced performance
- > Additional floorboard sections to make assembly and storage easier
- > The safety and peace-of-mind of three separate internal air chambers, plus the inflatable keel
- > Fibreglass floorboards provide extra stability and are suitable for a wide variety of activities
- > New dual-action hand pump with pressure gauge
- > High-quality Mercury valves
- > Tow holes in transom

HEAVY DUTY DESIGNED TO BE TOUGH & RELIABLE

Ideal for diving or club use... wherever a heavy-duty inflatable boat with a little extra space is required. These are boats that can carry a lot of people and gear... the largest model accommodating up to 10 adults!

HEAVY DUTY	365	415	470	515
Fabric				
- Mehler Haku® PVC 3 year warranty	✓	✓	✓	
- Achilles® HP 5 year warranty	✓	✓	✓	✓
Max Persons	6	8	10	12
Length	365cm	415cm	470cm	515cm
Max HP	25	30	55	50
Max Engine Weight	85kg	85kg	130kg	130kg
Weight (Excludes weight of oars, repair kit, double action pump, seat & bag supplied with all boats)				
- Mehler Haku® PVC	99kg	119kg	159kg	
- Achilles® HP	107kg	128kg	166kg	184kg

Light in weight, but not in features –

- > Rubbing strake around the tube
- > Pliable tubes and a low freeboard, making it easier for people to roll off and re-board
- > Built to last, with specially reinforced fabric and aluminium floorboards for extra sturdiness in rougher water
- > Strong enough to take bigger engines, able to accommodate up to a 55hp outboard
- > Can be fitted with optional consoles

ALUMINIUM RIB

THE ULTIMATE IN STRENGTH AND DURABILITY

The new line of Mercury Aluminium Rigid Inflatable Boats (RIB) were built with durability in mind. The hull is crafted from 3mm thick aluminium resulting in a rigid hull and flat floor. The reinforced aluminium transom provides strength and durability to mount motors up to a 20hp FourStroke on the 320 model. Aluminium davits also provide robust hanging points if used as a tender.

ALUMINIUM RIBS	270	320
Fabric		
- Mehler Haku® PVC 3 year warranty	✓	✓
- Achilles® HP 5 year warranty	✓	✓
Max Persons	3	4 + 1 child
Length	270cm	320cm
Max HP	10	20
Max Engine Weight	45kg	60kg
Weight (Excludes weight of oars, repair kit, double action pump, seat & bag supplied with all boats)		
- Mehler Haku® PVC model	48kg	54kg
- Achilles® HP model	51kg	56kg

Note: This warranty applies to fabric and seams. There is a 1 year warranty on the hull of Aluminium RIB models.

Key Features and Benefits –

- > Tubes constructed from tough and longwearing Mehler Haku® PVC, or premium-quality Achilles® HP fabric
- > Painted 3mm aluminium hull and floor for durability and light weight
- > Checker plate non-slip floor
- > All models feature fibreglass seat
- > Integrated davit lifting points make them ideal tenders
- > Double action hand pump with air pressure gauge and repair kit included
- > Convenient paddle-securing clamps

DYNAMIC RIB

ADDED PERFORMANCE OF A LIGHTWEIGHT HULL

Mercury's Dynamic Rigid Inflatable Boat (RIB) delivers the hull strength of a conventional boat with the exceptional stability of an inflatable in one extremely light package.

DYNAMIC RIB	250	270	300
Fabric			
- Mehler Haku® PVC 3 year warranty	✓	✓	✓
- Achilles® HP 5 year warranty	✓	✓	✓
Max Persons	3	4	4
Length	250cm	270cm	300cm
Max HP	5	8	15
Max Engine Weight	30kg	40kg	60kg
Weight (Excludes weight of oars, repair kit, double action pump, seat & bag supplied with all boats)			
- Mehler Haku® PVC model	34kg	38kg	50kg
- Achilles® HP model	37kg	42kg	53kg

Manufactured with VITECH® (Vacuum Injection Technology®), that combines both the techniques of robotic production and skilled labour, with high quality raw materials, improving handling, performance, durability, and an excellent strength-to-weight ratio.

Key features & benefits -

- > Tubes constructed from tough and longwearing Mehler Haku® PVC, or premium-quality Achilles® HP fabric
- > All models feature fibreglass seat
- > Non-skid floor for added safety
- > Integrated davit lifting points make them ideal tenders
- > Conveniently located grab lifting handles
- > Double-action hand pump, with air pressure gauge and repair kit
- > Convenient paddle-securing clamps

OCEAN RUNNER RIB

LATEST DESIGN & ADVANCED HULLS

Our new Ocean Runner RIBs (Rigid Inflatable Boats) are very versatile boats that are easy to handle and feature the latest hull design for superior performance, safety and durability!

OCEAN RUNNER	290	340	420	460
Fabric				
- Mehler Haku® PVC 3 year warranty	✓	✓	✓	✓
- Achilles® HP 5 year warranty	✓	✓	✓	✓
Max Persons	4	5	7	9
Length	290cm	340cm	420cm	460cm
Max HP	15*	25	40	60
Max Engine Weight	45kg	85kg	110kg	130kg
Weight (Excludes weight of oars, repair kit, double action pump, seat & bag supplied with all boats)				
- Mehler Haku® PVC model	65kg	89kg	120kg	129kg
- Achilles® HP model	68kg	93kg	123kg	132kg

Bow storage locker (on the 340, 420 & 460)

Internal & external towing/ lifting points

- > They're practical and affordable for both fishing and family fun
- > Designed to specifically match with the latest outboard engines
- > Tubes constructed from incredibly tough and long-wearing Mehler Haku® PVC or Achilles® HP fabric
- > Achilles HP boats feature 100% HP fittings for added strength
- > All models feature fibreglass seat (optional on 420/460)
- > Non-skid fibreglass floor for added safety

- > Tough transom made from durable fibreglass, as an integral part of the whole hull body
- > Both internal and external davit lifting points
- > Conveniently located grab lifting handles
- > Double-action hand pump, with air pressure gauge and repair kit
- > Convenient paddle-securing clamps
- > New Bow Locker for storage of small anchor and/or personal items
- > Can be fitted with optional consoles

Jockey Junior Available on: 290/340

Jockey Sport Available on: 340/420/460

Pack Comfort Available on: 420/460

Pack Comfort JR Available on: 460

* 10hp maximum for the Achilles HP model
